Titolo	Sozialperspektivitat; theoretische Bezuge, Forschungsmethodik und wirtschaftliche Praktikabilitat eines beziehungsdiagnostischen Konstrukts // Micha Strack
Pubbl/distr/stampa	[Place of publication not identified] : , : Universitatsverlag Gottingen, , 2004
Descrizione fisica	1 online resource
Disciplina	370.155
Soggetti	Perceptual learning
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Social perspective defines the human skill of changing between the point of view of oneself and the other. It takes meta-perspectives and applies them to the different (suspected) point of views. If one knows how the interaction-partner sees the world, one can assume the partner s willingness to act and consider it for one s own plan of action.
