

1. Record Nr.	UNISA996540336203316
Autore	Roth Phillip H.
Titolo	Medicine as Science : the making of disciplinary identity from scientific medicine to biomedicine // Phillip H. Roth
Pubbl/distr/stampa	Baden-Baden : , : Nomos, , [2022] ©2022
ISBN	3-7489-3188-3
Descrizione fisica	1 online resource (226 pages)
Collana	Schriftenreihe "Wissenschafts- und Technikforschung" ; ; Band 22
Disciplina	610.9
Soggetti	Medicine - History
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	'Medicine as Science' uncovers the forgotten identity of medicine as a modern academic discipline. Many works on the history and sociology of science and medicine have overshadowed this identity with a focus on medicine as a modern profession. Through a historical sociology and using a conceptual historical lens, this book examines the identity work of medical science from the inception of modern research universities to current discourses on science and medicine. Showing how important institutions and basic concepts of medical science emerged and revealing their cultural origins, it explains how the idea of biomedicine has today come to mean the intimate connection between laboratory research and the prospects of better healthcare.
