1. Record Nr.   UNISA996542667203316

   Autore   Rauterberg Matthias

   Titolo   Culture and Computing [[electronic resource]] : 11th International
                      Conference, C&C 2023, Held as Part of the 25th HCI International
                      Conference, HCII 2023, Copenhagen, Denmark, July 23–28, 2023,
                      Proceedings / / edited by Matthias Rauterberg

   Pubbl/distr/stampa Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2023

   ISBN   3-031-34732-3

   Edizione   [1st ed. 2023.]

   Descrizione fisica 1 online resource (632 pages)

   Collana   Lecture Notes in Computer Science, , 1611-3349 ; ; 14035

   Disciplina   303.4834

   Soggetti   User interfaces (Computer systems)
                      Human-computer interaction
                      User Interfaces and Human Computer Interaction

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Nota di contenuto   Advancements in Cultural Heritage Preservation -- Experience Design
                       in Exhibitions and Public installations -- Creativity and Design in Arts
                       and Architecture -- Culture and Technological Innovations -- Cross-
                       Cultural Perspectives in Humanities and Technology.

   Sommario/riassunto This book constitutes the refereed proceedings of the 11th
                       International Conference on Culture and Computing, C&C 2023, held as
                       part of the 25th International Conference, HCI International 2023,
                       which was held virtually in Copenhagen, Denmark in July 2023. The
                       total of 1578 papers and 396 posters included in the HCII 2023
                       proceedings was carefully reviewed and selected from 7472
                       submissions. The C&C 2023 proceeding focuses on preserving,
                       disseminating, and creating cultural heritages via ICT (e.g., digital
                       archives), to empower humanities research via ICT (i.e., digital
                       humanities), to create art and expressions via ICT (i.e., media art), to
                       support interactive cultural heritage experiences (e.g., rituals), and to
                       understand new cultures born on the Internet (e.g., net culture, social
                       media, games).
