

1. Record Nr.	UNISA996543359203316
Titolo	IEEE Guide for General Requirements of Mass Customization / / IEEE
Pubbl/distr/stampa	New York, USA : , : IEEE, , 2023
ISBN	1-5044-9833-X
Descrizione fisica	1 online resource (52 pages)
Disciplina	670
Soggetti	Mass customization
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Definitions, terminology, operational procedures, system architectures, key technological requirements, data requirements, and applications of and related to customer-oriented mass customization are provided in this guide. This guide provides reference information to be used by manufacturing enterprises for designing and implementing business models for mass customization.
