Nota di contenuto	The quest for a regional political class -- Regionalism, regionalisation and regional institutions in Catalonia and Scotland : setting the stage for a regional political class -- Political careers : the making of a regional political class in itself -- (Re)making political institutions : a regional political class for itself -- Conclusion : traces of a regional political class in Catalonia and Scotland -- Appendix 1. Survey of regional parliamentarians in Catalonia and Scotland -- Appendix 2. Interview series with Catalan and Scottish politicians -- Appendix 3. Time commitments of regional politicians.
Sommario/riassunto	Focussing on professional politicians Klaus Stolz investigates the interrelationship between political career patterns and political institutions in two of the most widely discussed cases of regionalism: Catalonia and Scotland. The study deals with two different yet closely

related sets of questions: Firstly, how do professional politicians pursue their careers in the regional context. And secondly, how do they shape and reshape the political institutions in which they pursue these careers. The monograph is based on extensive empirical research including a comprehensive data set on the careers

Sommario/riassunto	<p>The five-volume set CCIS 1832-1836 contains the extended abstracts of the posters presented during the 25th International Conference on Human-Computer Interaction, HCII 2023, which was held as a hybrid event in Copenhagen, Denmark, in July 2023. The total of 1578 papers and 396 posters included in the 47 HCII 2023 proceedings volumes were carefully reviewed and selected from the 7472 contributions. The posters presented in these five volumes are organized in topical sections as follows: Part I: HCI Design: Theoretical Approaches, Methods and Case Studies; Multimodality and Novel Interaction Techniques and Devices; Perception and Cognition in Interaction; Ethics, Transparency and Trust in HCI; User Experience and Technology Acceptance Studies. Part II: Supporting Health, Psychological Wellbeing, and Fitness; Design for All, Accessibility and Rehabilitation Technologies; Interactive Technologies for the Aging Population. Part III: Interacting with Data, Information and Knowledge; Learning and Training Technologies; Interacting with Cultural Heritage and Art. Part IV: Social Media: Design, User Experiences and Content Analysis; Advances in eGovernment Services; eCommerce, Mobile Commerce and Digital Marketing: Design and Customer Behavior; Designing and Developing Intelligent Green Environments; (Smart) Product Design. Part V: Driving Support and Experiences in Automated Vehicles; eXtended Reality: Design, Interaction Techniques, User Experience and Novel Applications; Applications of AI Technologies in HCI.</p>
