Disciplina   353.950285

Soggetti   Application software
Computer engineering
Computer networks
Coding theory
Information theory
Social sciences - Data processing
Computer and Information Systems Applications
Computer Engineering and Networks
Coding and Information Theory
Computer Application in Social and Behavioral Sciences

Lingua di pubblicazione   Inglese

Formato   Materiale a stampa

Livello bibliografico   Monografia

Nota di contenuto   Strategic Disaster Risk Reduction -- Situational Awareness -- Telecommunications, Sensors and Drones -- Collaborative Emergency Management -- Cybersecurity and Privacy -- Earthquake and Climate Forecasting -- Social Media Analytics -- Community Resilience.

Sommario/riassunto   This volume constitutes the refereed and revised post-conference proceedings of the 7th IFIP WG 5.15 International Conference on Information Technology in Disaster Risk Reduction, ITDRR 2022, held in Kristiansand, Norway, in October 2022. The 23 full papers presented were carefully reviewed and selected from 33 submissions. The papers

focus on various aspects and challenges of coping with disaster risk reduction. The papers are categorized in the following topical subheadings: strategic disaster risk reduction; situational awareness; telecommunications, sensors and drones; collaborative emergency management; cybersecurity and privacy; earthquake and climate forecasting; social media analytics; community resilience.
