| Livello bibliografico   | Monografia   |
| Sommario/riassunto      | The category and composition, technical requirements, test methods, inspection rules, marking, packing, transportation, storage, and installation of distributed traveling wave fault location devices for high-voltage direct-current (HVDC) transmission lines are detailed. This recommended practice is applicable to distributed traveling wave fault location devices for HVDC transmission lines and alternating current (ac) transmission lines. |
