Sommario/riassunto	By drawing together widely dispersed yet central writings, the Berlin Reader is an essential resource for everyone interested in urban development in one of the most interesting and important metropolises in Europe. It provides scholars as well as students, journalists and visitors with an overview of the most central discussions on the tremendous changes Berlin experienced since the fall of the wall. It covers a wide range of issues, including inner city renewal, housing and

the local economy, gentrification and other urban conflicts. The book breaks ground in two dimensions: first, by offering also non-German speakers an insight into the very controversial debates after reunification, and, second, by highlighting the ambivalent consequences of Berlin's urban transformation in the past decades. »Der ›Berlin Reader‹ [gibt] als profunde Einfuhrung einen kritischen Uberblick uber Stadtentwicklung, Debatten und Aktivismus in Berlin seit den 1990er Jahren.« Elky Krasny, *derive*, 55 (2014) »Bucher wie das vorliegende helfen uns, stadtische Entwicklungen zu begreifen und zu verstehen.« Thomas Feltes, *www.polizei-newsletter.de*, 10 (2013)

Sommario/riassunto	This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. Refugees have moved into the spotlight of public debate in Europe and North America, where they are targeted by multiple welfare state interventions. This volume analyses the tensions that emerge within the strong welfare states of Northern Europe when faced with an increased immigration of

protection-seeking people. Examining the encounter between refugees and the welfare states, this book explores the daily strategies and experiences of newly settled groups and the role of media discourses and welfare policies in shaping those experiences. Building on both textual analyses and ethnographic fieldwork in welfare institutions, asylum centres, and refugee communities, this volume provides an in-depth understanding of the complex realities faced by refugees: deterrence and categorisation, struggle and success, mobility and stagnation. As social phenomena, Northern Europe's asylum systems and integration programmes must be understood in the context of the bureaucratisation of everyday life.
