Andean Infrastructures in Guaman Poma de Ayala's Chronicle (1615) --
The Dangers of Infrastructure Byproducts and What We Can Learn From
Muriel Rukeyser's "The Book of the Dead" -- Afrofuturist Infrastructure
as Allegory: Picturing Sustainability in Wanuri Kahiu's Pumzi (2009) --
Section VII: Infrastructures and Colonialism -- Canals & Clans:
Mediterranean Infrastructures -- Imagined Infrastructures: Eurafrica
and Worldmaking in the Mid-Twentieth Century -- Imperial Roads and
the Fascist Culture of Total Mobilization -- Authors

Sommario/riassunto

Infrastructure comprises a combination of sociotechnical, political, and cultural arrangements that provide resources and services. The contributors to this volume show, in their respective fields, how infrastructures are both generative forces and the materialized products of "indian practices that affect and guide people's lives. Organized via shared conceptual foci, this volume demonstrates infrastructuralist perspectives as an important transdisciplinary approach within the humanities.
