| Edizione                | [1st ed. 2023.]   |
| Descrizione fisica      | 1 online resource (140 pages)   |
| Collana                 | Communications in Computer and Information Science, , 1865-0937 ; ; 1786  |
| Disciplina              | 519.2   |
| Soggetti                | Stochastic models<br>Stochastic processes<br>Application software<br>Stochastic Modelling in Statistics<br>Stochastic Modelling<br>Stochastic Networks<br>Computer and Information Systems Applications   |
| Lingua di pubblicazione | Inglese   |
| Formato                 | Materiale a stampa  |
| Livello bibliografico   | Monografia  |
| Nota di contenuto       | Performance modelling of attack graphs -- Towards Calculating the Resilience of a Urban Transport Network under Attack -- Analysis of the Battery Level in Complex Wireless Sensor Networks using a Two Time Scales Second Order Fluid Model -- To Confine or not to Confine: A Mean Field Game Analysis of the End of an Epidemic -- Data Center Organization and Optimization Strategy as a k-ary n-cube Topology -- Towards energy-aware management of shared printers -- Modelling Performance and Fairness of Frame Bursting in IEEE 802.11n using PEPA. |
| Sommario/riassunto      | This book constitutes the referred proceedings of the 11th International Workshop on Practical Applications of Stochastic Modelling, PASM 2022, was held in Alicante, Spain, in September 2022. The 7 full papers presented in this volume were carefully reviewed and selected from 9 submissions. The papers demonstrate a diverse set of   |
