Sommario/riassunto	This book constitutes the proceedings of the 22st International Conference on Embedded Computer Systems: Architectures, Modeling, and Simulation, SAMOS 2021, which took place in July 2022 in Samos, Greece. The 11 full papers and 7 short papers presented in this volume were carefully reviewed and selected from 45 submissions. The

conference covers a wide range of embedded systems design aspects, including machine learning accelerators, and power management and programmable dataflow systems.

Sommario/riassunto

This book explores contemporary club and dance cultures as a manifestation of aesthetic and prosthetic forms of life. Rief addresses the questions of how practices of clubbing help cultivate particular forms of reflexivity and modes of experience, and how these shape new devices for reconfiguring the boundaries around youth cultural and

other social identities. She contributes empirical analyses of how such forms of experience are mediated by the particular structures of nightclubbing economies, the organizational regulation and the local organization of experience in club spaces, the medi
