

1. Record Nr.	UNISA996574637903316
Titolo	336-2020 : IEEE recommended practice for installation, inspection, and testing for class 1E power, instrumentation, and control equipment at nuclear facilities - redline // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	New York, New York : , : IEEE, , 2020
ISBN	1-5044-7377-9
Descrizione fisica	1 online resource (39 pages)
Disciplina	621.48
Soggetti	Nuclear power plants - Equipment and supplies Nuclear power plants - Instruments
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Considerations for the pre-installation, installation, inspection, and testing of Class 1E power, instrumentation, and control equipment and systems of a nuclear facility while in the process of installing, inspecting, and testing during new construction, modification, or maintenance are provided in this recommended practice. This recommended practice does not apply to periodic surveillance testing. For purposes of this recommended practice, in addition to a nuclear power plant, a nuclear facility is defined as a facility related to the nuclear fuel cycle from fuel processing to reprocessing and waste management.
