

1. Record Nr.	UNISA996574687703316
Titolo	8802-1AR-2020 - ISO/IEC/IEEE International Standard for Telecommunications and exchange between information technology systems . Part 1AR, Secure device identity : Requirements for local and metropolitan area networks // IEEE
Pubbl/distr/stampa	New York. : , : IEEE, , 2020
ISBN	1-5044-6588-1
Descrizione fisica	1 online resource (76 pages)
Disciplina	341.35
Soggetti	Authentication Telecommunication - Standards Information technology - Standards Local area networks (Computer networks) - Standards Metropolitan area networks (Computer networks) - Standards
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	A Secure Device Identifier (DevID) is cryptographically bound to a device and supports authentication of the device's identity. An Initial Device Identifier (IDevID) provided by the supplier of a device can be supplemented by Local Device Identifiers (LDevIDs) facilitating enrollment (provisioning of authentication and authorization credentials) by local network administrators.
