

1. Record Nr.	UNISA996574708803316
Titolo	644-2019 - IEEE Standard Procedures for Measurement of Power Frequency Electric and Magnetic Fields from AC Power Lines // IEEE
Pubbl/distr/stampa	New York. : , : IEEE, , 2020
ISBN	1-5044-6351-X
Descrizione fisica	1 online resource (40 pages)
Disciplina	530.141015194
Soggetti	Electric fields - Measurement Magnetic fields - Measurement Electric lines - Standards Electric power transmission - Standards
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Uniform procedures for the measurement of power frequency electric and magnetic fields from alternating current (ac) overhead power lines and for the calibration of the meters used in these measurements are established in this standard. The procedures apply to the measurement of electric and magnetic fields close to ground level. The procedures can also be tentatively applied (with limitations, as specified in the standard) to electric fields near an energized conductor or structure.
