

1. Record Nr.	UNISA996574746803316
Titolo	2401-2019 IEEE Standard Format for LSI-Package-Board Interoperable Design - Redline // IEEE
Pubbl/distr/stampa	New York : , : IEEE, , 2020
ISBN	1-5044-6508-3
Descrizione fisica	1 online resource (436 pages)
Disciplina	003
Soggetti	Large scale systems Integrated circuits Printed circuits - Design and construction Computer networks
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	A method is provided for specifying a common interoperable format for electronic systems design. The format provides a common way to specify information/data about the project management, netlists, components, design rules, and geometries used in the large-scale integration-package-board designs. The method provides the ability to make electronic systems a key consideration early in the design process; design tools can use it to seamlessly exchange information/data.
