

1. Record Nr.	UNISA996574848903316
Titolo	1901b-2021 - IEEE Standard for Broadband over Power Line Networks : Medium Access Control and Physical Layer Specifications Amendment 2: Enhancements for Authentication and Authorization // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	[Place of publication not identified] : , : IEEE, , 2022
ISBN	1-5044-8295-6
Descrizione fisica	1 online resource (23 pages)
Disciplina	341.35
Soggetti	Authentication Authentication - History
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	State-of-the-art authentication and authorization mechanisms for networks, especially for IoT and access devices, are integrated in this amendment. Specifications for how IEEE Std 802.1X may be utilized for authentication and authorization by IEEE 1901 networks are provided in this amendment.
