

1. Record Nr.	UNISA996574959503316
Titolo	2021 International Conference on Indoor Positioning and Indoor Navigation (IPIN) : 29 November - 2 December 2021, Lloret de Mar, Spain // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	Piscataway, New Jersey : , : IEEE, , 2021
ISBN	1-66540-402-7
Descrizione fisica	1 online resource (655 pages) : illustrations
Disciplina	526.1028
Soggetti	Global Positioning System Indoor positioning systems (Wireless localization)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The conference addresses the topics of indoor positioning and navigation The advent of terrestrial positioning systems, the internet of things and human sensor networks providing new navigation functionalities sets a novel paradigm for indoor positioning and navigation solutions that drives to the concept of intelligent spaces The environment, where navigation technology is expected to work, has extended to challenging indoor spaces and to the context of goods and personal mobility Globally there is no overall and easy solution.
