

1. Record Nr.	UNISA996575110303316
Titolo	3161-2022 - IEEE Standard for Digital Retina Systems / / Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	New York, USA : , : IEEE, , 2023
ISBN	1-5044-9350-8
Descrizione fisica	1 online resource (24 pages)
Disciplina	006.7876
Soggetti	Streaming technology (Telecommunications)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The aspects of reference architecture, technical characteristics, components, and functional requirements of digital retina systems for real-time analysis and processing of video big data are discussed in this standard.
