

1. Record Nr.	UNISA996575165403316
Titolo	2022 IEEE Evaluation and Beyond - Methodological Approaches for Visualization (BELIV) // IEEE Computer Society
Pubbl/distr/stampa	Los Alamitos, California : , : IEEE Computer Society, , 2022
ISBN	979-83-503-9629-4
Descrizione fisica	1 online resource
Disciplina	621.3815422
Soggetti	Information visualization Information display systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	BELIV is an international workshop forum to broadly discuss research methods in visualization BELIV s coverage spans from novel and not yet fully established design and evaluation methods for visualization tools and techniques, to methods that more generally establish the validity and scope of acquired visualization knowledge BELIV supports contributions and discussions from the rich spectrum of visualization researchers, embracing the varied ways that researchers self identify with respect to the main conference areas at VIS Complementary to the broad scope of BELIV and its general commitment to research methods, BELIV 2022 will include a timely focus topic Designing and Evaluating Visualizations for an Ethical, Inclusive, and Responsible Future.
