Sommario/riassunto	<p>Long description: Die Energiewende und die damit einhergehende Transformation des gesamten Energiesystems bedürfen vielfältiger Lösungen von den Energietechnologien über die Energieanwendungen bis hin zu den Netzen und dem regulatorischen und Markt-Rahmen. Mit der zunehmenden Substitution fossiler Energieträger im Wärme- und Verkehrssektor durch Strom aus Erneuerbaren Energiequellen, nehmen zudem die Wechselwirkungen zwischen den Sektoren zu. Im Mittelpunkt des ETG-Kongresses 2019 stehen daher die gesamtsystemrelevanten Aspekte der aktuellen Fokusthemen Sektorenkopplung, Elektromobilität und Digitalisierung. Diese Themen bieten konkrete Motivationen sichtbare Lösungen zu finden, mit denen das Energiesystem der Zukunft gestaltet werden kann. Neueste Erkenntnisse und Innovationen aus Wissenschaft und Praxis bieten hochinteressante und relevante Beiträge, die gemeinsam diskutiert werden. Zusätzlich zu den Fokusthemen finden große Projekte, die als Experimentierfelder (Reallabore) oder auch als Schaufenster Innovationen von der Wissenschaft in die Anwendung bringen, eine Plattform, die neuesten Erkenntnisse zu präsentieren.</p>

Sommario/riassunto	The UN Security Council has been given the primary responsibility for maintaining international peace and security. The precise meaning of this responsibility, however, is contested. This lack of clarity is frequently criticised as a source of incoherent and selective decision-making, undermining the legitimacy of the Security Council. In case studies of the Security Council's controversies on Iraq and Syria, this book instead reveals contestation and competing interpretations of responsibility as crucial conditions for the constitution and negotiation

of normative order. The case studies also underline the importance of public Security Council meetings as dynamic sites for coping with a plurality of normative orders and how their symbolic and material manifestations shape processes of collective legitimation. This book concludes that these processes demonstrate the crucial role of justification and critique as practices of normative ordering in the Security Council. The Justification of Responsibility in the UN Security Council argues that normative orders in international organisations are constructed by multifaceted processes of questioning, reaffirming and coordinating claims of normativity and legitimacy. Connecting research on norms and legitimacy in international relations with pragmatist sociology, the book provides an account of the complexities and inconsistencies of decision-making processes and their normative foundations in international organisations. This book will be of interest to scholars and students of international organisations, international relations theory and global governance.
