

1. Record Nr.	UNISA996582046003316
Autore	Elman Julie Passanante
Titolo	Chronic Youth : Disability, Sexuality, and U.S. Media Cultures of Rehabilitation // Julie Passanante Elman
Pubbl/distr/stampa	New York, NY : , : New York University Press, , [2014] ©2014
ISBN	1-4798-4110-2 1-4798-0629-3
Descrizione fisica	1 online resource (256 p.)
Collana	NYU Series in Social and Cultural Analysis ; ; 4
Classificazione	LAW096000SOC032000
Disciplina	305.2350973
Soggetti	Youth - United States - Conduct of life At-risk youth - United States Teenagers - United States SOCIAL SCIENCE / Gender Studies LAW / Media & the Law
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Frontmatter -- Contents -- Acknowledgments -- Introduction. From rebel to patient -- 1. Medicine is magical and magical is art: liberation and overcoming in the boy in the plastic bubble -- 2. After school special education: sex, tolerance, and rehabilitative television -- 3. Cryin' and dyin' in the age of aliteracy romancing teen sick-lit -- 4. Crazy by design: Neuroparenting and crisis in the decade of the brain -- Conclusion. Susceptible citizens in the age of wiihabilitation -- Notes -- Bibliography -- Index -- About the author
Sommario/riassunto	The teenager has often appeared in culture as an anxious figure, the repository for American dreams and worst nightmares, at once on the brink of success and imminent failure. Spotlighting the "troubled teen" as a site of pop cultural, medical, and governmental intervention, Chronic Youth traces the teenager as a figure through which broad threats to the normative order have been negotiated and contained. Examining television, popular novels, science journalism, new media, and public policy, Julie Passanante Elman shows how the teenager became a cultural touchstone for shifting notions of able-bodiedness,

heteronormativity, and neoliberalism in the late twentieth century. By the late 1970s, media industries as well as policymakers began developing new problem-driven 'edutainment' prominently featuring narratives of disability—from the immunocompromised *The Boy in the Plastic Bubble* to ABC's *After School Specials* and teen sick-lit. Although this conjoining of disability and adolescence began as a storytelling convention, disability became much more than a metaphor as the process of medicalizing adolescence intensified by the 1990s, with parenting books containing neuro-scientific warnings about the incomplete and volatile "teen brain." Undertaking a cultural history of youth that combines disability, queer, feminist, and comparative media studies, Elman offers a provocative new account of how American cultural producers, policymakers, and medical professionals have mobilized discourses of disability to cast adolescence as a treatable "condition." By tracing the teen's uneven passage from postwar rebel to 21st century patient, *Chronic Youth* shows how teenagers became a lynchpin for a culture of perpetual rehabilitation and neoliberal governmentality.
