

1. Record Nr.	UNISA996586268003316
Autore	Wang Yifang
Titolo	EXPLORING THE MICROSCOPIC WORLD-BEIJING ELECTRON POSITRON COLLIDER // Yifang Wang
Pubbl/distr/stampa	Warsaw ; ; Berlin : , : Sciendo, , [2024] ©2024
ISBN	83-66675-91-2
Descrizione fisica	1 online resource
Soggetti	Technology & Engineering / General
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Frontmatter -- Contents -- Chapter 1: How Minute Could the Microscopic World Be -- Chapter 2: Great Tools for the Study of the Micro World -- Chapter 3: The Origin and Development of BEPC -- Chapter 4: The Secret in the Structure of BEPC -- Chapter 5: Large Particle Detector—BES -- Chapter 6: High-Energy Physics Research in the -Charm Energy Zone -- Chapter 7: The Beijing Synchrotron Radiation Facility -- Chapter 8: High Energy Physics and Our Lives -- Chapter 9: Future High Energy Colliders -- Conclusion -- Abbreviations
Sommario/riassunto	The BEPC is one machine with dual uses. Its synchrotron radiation light source is open to the public and has become an important base for China to carry out interdisciplinary researches in such fields as condensed matter physics, materials science, chemistry, life science, resource environment and microelectronics. It has delivered magnificent economic and social benefits.
