Sommario/riassunto

This book constitutes revised selected papers from the thoroughly refereed conference proceedings of the 16th International Conference on Innovative Security Solutions for Information Technology and Communications, SecITC 2023, held in Bucharest, Romania, in November 2023. The 14 full papers included in the book were carefully reviewed and selected from 57 submissions. They focus on all theoretical and practical aspects related to information technology and communications security. .
