Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Overview -- Evaluation and treatment planning -- Obsessive compulsive and related disorders -- Special issues in treatment -- Special clinical circumstances.
Sommario/riassunto	Clinical Guide to Obsessive Compulsive and Related Disorders is a complete, comprehensive overview of OCD and related disorders (trichotillomania, excoriation disorder, hoarding disorder, body dysmorphic disorder, and tic disorders). The book covers underlying causes, clinical presentations and treatments. The book serves as a primer for clinicians in training and those already in practice who have little if any background in these disorders. It discusses the pharmacological and psychosocial treatments for both adults and children with an emphasis on providing practical information for clinicians to use in their everyday practices. Based on the DSM-5, the book uses the latest evidence-based information regarding treatments including medication options, behavioral therapies, alternative treatments, and recent developments in surgical treatment. This book will provide students, residents, interns and even veteran clinicians with a basic understanding of OCD and disorders that are often associated with OCD. In addition, members of the public and those affected by

these disorders may use this book to enhance their personal knowledge of the subject matter presented.

Sommario/riassunto	What does it mean to turn something into capital? What does considering things as assets entail? What does the prevalence of an investor's viewpoint require? What is this culture of valuation that asks that we capitalize on everything? How can we make sense of the traits, necessities and upshots of this pervasive cultural condition?This book

takes the reader to an ethnographic stroll down the trail of capitalization. Start-up companies, research centers, consulting firms, state enterprises, investment banks, public administrations: the territory can certainly prove strange and disorienting at first sight, with its blurred boundaries between private appropriation and public interest, economic sanity and moral breakdown, the literal and the metaphorical, the practical and the ideological. The traveler certainly requires a resolutely pragmatist attitude, and a taste for the meanders of signification. But in all the sites in which we set foot in this inquiry we recognize a recurring semiotic complex: a scenario of valuation in which things signify by virtue of their capacity to become assets in the eye of an imagined investor. A ground-breaking anthropological investigation on the culture of contemporary capitalism, this work directs attention to the largely unexplored problem of capitalization and offers a critical resource for current debates on neoliberalism and financialization.

3. Record Nr.	UNISA996588051303316
Titolo	Jezyk. religia. tozsamosc
