

1. Record Nr.	UNISA996601562803316
Autore	Capretta Venanzio
Titolo	Logics and Type Systems in Theory and Practice : Essays Dedicated to Herman Geuvers on the Occasion of His 60th Birthday
Pubbl/distr/stampa	Cham : , : Springer, , 2024 ©2024
ISBN	3-031-61716-9
Edizione	[1st ed.]
Descrizione fisica	1 online resource (284 pages)
Collana	Lecture Notes in Computer Science Series ; ; v.14560
Altri autori (Persone)	KrebbersRobbert WiedijkFreek
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- List of Expert Reviewers -- Contents -- Sequential Value Passing Yields a Kleene Theorem for Processes -- 1 Introduction -- 2 Preliminaries -- 3 Regular Expressions -- 4 Signals and Conditions -- 5 Sequencing -- 6 Pushdown Processes -- 7 Conclusion -- References -- YACC: Yet Another Church Calculus -- 1 Introduction -- 2 Syntax of TIC -- 3 Type Reconstruction -- 4 Operational Semantics of TIC -- 5 Relations with Intersection Type Assignment Systems -- 6 Related Works and Conclusion -- References -- Safe Smooth Paths Between Straight Line Obstacles -- 1 Introduction -- 2 A Combination of Algorithms -- 3 Producing a Sequence of Events -- 4 Producing Cells -- 5 Making a Broken Line Trajectory Between Two Points -- 6 Making a Smooth Trajectory -- 7 Exploiting the Program and Visual Feedback -- 8 Future Work -- 9 Related Work -- 10 Conclusion -- References -- Learning Guided Automated Reasoning: A Brief Survey -- 1 Introduction -- 2 Early History -- 3 Characterization of Mathematical Knowledge -- 3.1 Syntactic Features -- 3.2 ENIGMA Syntactic Features -- 3.3 More Semantic Features -- 3.4 Characterization Using Neural Networks -- 4 Premise Selection -- 4.1 k-Nearest Neighbors (k-NN) -- 4.2 Naive Bayes -- 4.3 Decision Trees -- 4.4 Neural Methods -- 5 Guidance of Saturation-Based ATPs -- 6 Guidance of Tableaux and Instantiation-Based ATPs -- 7 Tactic Based ITP Guidance -- 7.1 Overview -- 7.2 Advantages of Tactic-Based ITP

Guidance -- 7.3 Challenges in Tactic-Based ITP Guidance -- 8 Related Symbolic Classification Problems -- 9 Conclusion -- References -- Approximation Fixpoint Theory in Coq -- 1 Introduction -- 2 Ordinals and Lattices -- 3 Approximators and Fixpoints -- 4 An Example: Propositional Logic Programming -- 5 Related Work -- 6 Conclusions -- References -- Constructing Morphisms for Arithmetic Subsequences of Fibonacci.

1 Introduction -- 2 Preliminaries and Main Result -- 3 Fibonacci Numbers -- 4 Fibonacci Morphism -- 5 Proof of the Theorem -- 6 Examples -- 7 Further Remarks -- References -- A Variation of Reynolds-Hurkens Paradox -- 1 Introduction -- 2 Some Paradoxes in Minimal Higher-Order Logic -- 2.1 A Variation of Russell's Paradox -- 2.2 A Refinement -- 3 An Encoding in U- -- 3.1 Weak Representation of Data Type -- 3.2 Some Variations -- 4 Computational Behavior -- 4.1 Family of Looping Combinators -- 4.2 Definitions and Head Linear Reduction -- 5 Conclusion -- References -- Between Brackets -- 1 Introduction -- 1.1 Constants Between Matching Brackets -- 1.2 Matching Brackets Between Constants -- 1.3 Two Brackets Between Constants -- 2 Strings and Terms -- 3 Context-Free Languages Representing Terms -- 3.1 Languages for Terms -- 3.2 Notations -- 3.3 Polish Notations -- 4 Circular Embedded Trees -- 4.1 Dual Structure -- 4.2 Dual and Weak Dual Graphs -- 4.3 Squaregraphs -- 5 Conclusion -- References -- Some Probabilistic Riddles and Some Logical Solutions -- 1 Introduction -- 2 Preliminaries -- 3 Hard Conditional Probability Problem -- 4 Probability of Second Girl Child -- 5 Tricky Probability Interview Puzzle -- 6 Life or Death -- 7 Paradox Probability Puzzle -- 8 Tricky Problem on Probability -- References -- It's All a Game -- 1 Introduction -- 2 Preliminaries -- 2.1 Bisimulation Games -- 2.2 Apartness -- 3 From Bisimulation Games to Apartness and Back -- 3.1 Spoiler-Strategies Constructed from Apartness Proofs -- 3.2 Spoiler-Strategy Induced Deductive Proofs of Apartness -- 4 Conclusions and Future Work -- References -- Multisets and Distributions -- 1 Introduction -- 2 The Distribution and Multiset Monads -- 3 Lists and Distributions -- 3.1 A Distributive Law $L:LFFL$ -- 3.2 The Parikh Map $\#:LM$ -- 3.3 A Distributive Law $M:MFFM$ -- 4 A General Result.

5 Conclusion -- A Extra Proofs -- A.1 $L:LFFL$ Is a Distributive Law -- A.2 Conditions of Theorem 3 -- References -- Minimal Depth Distinguishing Formulas Without Until for Branching Bisimulation -- 1 Introduction -- 2 Preliminaries -- 3 A Hennessy-Milner Theorem -- 4 Computing Minimal Depth Distinguishing Formulas -- 4.1 Implementation Details and Example -- References -- Relating Apartness and Branching Bisimulation Games -- 1 Introduction -- 2 Strong Bisimilarity -- 3 Branching Bisimilarity -- 4 Future Work -- References -- Fixed Point Theorems in Computability Theory -- 1 Introduction -- 2 The Second Recursion Theorem -- 3 Partial Combinatory Algebra -- 4 The Theory of Numberings -- 5 Overview -- 6 Fixed Point Free Functions and Arslanov's Completeness Criterion -- 7 Further Generalizations -- 8 Effectiveness and Other Remarks -- References -- A New Perspective on Conformance Testing Based on Apartness -- 1 Introduction -- 2 Partial Mealy Machines and Apartness -- 3 Main Result -- 4 Deriving Previous k-Completeness Results -- 5 Conclusions and Future Work -- References -- The Interval Domain in Homotopy Type Theory -- 1 Introduction -- 2 Preliminaries on Domain Theory -- 2.1 (Continuous) DCPOs -- 2.2 Scott Topology and Apartness -- 2.3 Strongly Maximal Elements -- 3 The Interval Domain -- 4 Strong Maximality and Locatedness -- 5 Real Arithmetic -- 6 Arithmetic Laws -- 7 Conclusions and Related Work -- References --

Characterizing Morphic Sequences -- 1 Introduction -- 2 Notation and Preliminaries -- 3 Tree Structures of Morphic Sequences -- 4 Morphic Sequences Characterized by Automata -- 5 Morphic Sequences Characterized by Subsequences -- 6 Morphic Sequences Characterized by Rational Infinite Terms -- 7 Morphic Sequences Characterized by Infinitary Rewriting -- 8 Conclusions -- References -- Author Index.
