

1. Record Nr.	UNISA996466848303316
Autore	Campisi Michele
Titolo	Lectures on the mechanical foundations of thermodynamics / / Michele Campisi
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2021] ©2021
ISBN	3-030-87163-0 9783030871635 3030871630 9783030871628
Descrizione fisica	1 online resource (xv, 91 pages) : illustrations
Collana	SpringerBriefs in physics
Disciplina	536.7
Soggetti	Thermodynamics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Intro -- Foreword -- Preface -- References -- Contents -- 1 The Constitutive Statements of Thermodynamics -- 1.1 First and Second Law -- 1.1.1 First Law of Thermodynamics -- 1.1.2 Second Law of Thermodynamics -- 1.2 Massieu Potentials -- 1.2.1 The Φ Potential F (Free Entropy) -- 1.2.2 The E , Potential H -- 1.2.3 The Φ , Potential G -- 1.2.4 The Φ , Massieu Grand Potential -- 1.3 Common Thermodynamic Potentials -- 1.3.1 The S, V Internal Energy E -- 1.3.2 The T, V Helmholtz Free Energy F -- 1.3.3 The S, P Enthalpy H -- 1.3.4 The T, P Gibbs Free Energy G -- 1.3.5 The T, V, μ , Grand Potential -- References -- 2 Minimal Mechanical Model of Thermodynamics -- 2.1 A Particle in a 1D Box -- 2.1.1 Remarks -- 2.2 Helmholtz Theorem -- 2.3 First Encounter with Ergodicity and the Microcanonical Ensemble -- 2.4 Non-uniqueness of Integrating Factors -- 2.5 Examples and Applications -- 2.5.1 Thermodynamics of a Harmonic Oscillator -- 2.5.2 The Peculiar Thermodynamics of a Log-Oscillator -- 2.5.3 Particle in a Double Well Potential -- References -- 3 The Microcanonical Ensemble -- 3.1 Many-Body Model of Thermodynamics -- 3.2 Remarks on Ergodicity -- 3.2.1 Metric Indecomposability -- 3.2.2 The Invariant Measure -- 3.3 Properties of

the Structure Function -- 3.4 Ideal Gas -- 3.4.1 Remarks -- 3.5 Some History -- 3.5.1 Boltzmann Expressions of Microcanonical Entropy -- References -- 4 The Canonical Ensemble -- 4.1 A System in Weak Interaction with a Large Ideal Gas -- 4.2 Validity of the Heat Theorem within the Canonical Ensemble -- 4.3 Properties of the Partition Function -- 4.4 Ideal Gas -- 4.5 Linear Response Coefficients and Fluctuations -- 4.6 Finite Bath Ensemble -- 4.7 A System in Weak Contact with a Logarithmic Oscillator -- References -- 5 The TP Ensemble -- 5.1 A System in Contact with a Thermal Reservoir and Subject to a Constant Pressure. 5.2 Validity of the Heat Theorem within the TP Ensemble -- 5.3 Fluctuations -- 5.4 Ideal Gas -- 5.5 Thermally Insulated System Subject to a Constant Pressure -- References -- 6 The Grandcanonical Ensemble -- 6.1 Relaxing the Constraint on N -- 6.2 A Slight Detour: Gibbs "Correct" Counting -- 6.3 Validity of the Heat Theorem within the Grandcanonical Ensemble -- 6.4 Ideal Gas -- 6.4.1 Fluctuations -- 6.5 Remarks -- References -- 7 Ensemble (in)-Equivalence -- 7.1 The Problem -- 7.2 Full Equivalence -- 7.3 Equivalence -- 7.3.1 Hilbert and Dunkel Model of Evaporation -- 7.3.2 The Saddle Point Approximation -- 7.4 Partial Equivalence -- 7.5 Inequivalence -- 7.5.1 Thirring Artificial Model of a Star -- 7.6 (In)-equivalent Expressions of the Microcanonical Entropy -- References.

2. Record Nr.	UNISA996636870803316
Autore	Andrews, William <ca. 1635-1713.>
Titolo	News from the stars, or, An ephemeris for the year 1697 : observations upon the eclipses, solar ingresses and configurations of heaven happening therein : being the first since the bissextile, or leap-year ... / by William Andrews
Pubbl/distr/stampa	London, : Printed by W. and J. Wilde for the Company of Stationers, 1697
Descrizione fisica	Testo elettronico (PDF) ([48] p.)
Disciplina	133.5
Soggetti	Astrologia
Lingua di pubblicazione	Inglese
Formato	Risorsa elettronica
Livello bibliografico	Monografia
Note generali	Pagine ritagliate con stampa trasparente Riproduzione dell'originale nella Harvard University Library
