

1. Record Nr.	UNISA996647815403316
Autore	Yifang WANG
Titolo	Erforschung der Unsichtbaren——Daya-Bay-Reaktor-Neutrino-Experiment : Daya-Bay-Reaktor-Neutrino-Experiment / / WANG Yifang
Pubbl/distr/stampa	Warsaw ; ; Berlin : , : Sciendo, , [2024] 2024
ISBN	9788367405621 8367405625
Descrizione fisica	1 online resource
Soggetti	SCIENCE / Chemistry / General
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Frontmatter -- Inhalt -- Einleitung -- Vorwort -- Epigraph -- Kapitel 1: Auftauchen: Geheimnisvolles Neutrino -- Kapitel 2: Verantwortung: Lösung „Das Geheimnis der Verschwundenen Antimaterie“ -- Kapitel 3: Außerordentlich: Daya-Bay-Reaktor-Neutrino-Experiment -- Kapitel 4: Ständige Verbesserung: Daya-Bay-Experimentgeräte -- Kapitel 5: Durchbruch: von Informationen bis zu physischen Ergebnissen -- Kapitel 6: Fruchtbare Ergebnisse: Die physikalischen Ergebnisse des Daya-Bay-Experiments -- Kapitel 7: Nach Vorwärts: die zukünftigen Neutrino-Experimenten -- Kapitel 8: Vorstellung über die Zukunft: der Menschheit Glück bringende Neutrinos
Sommario/riassunto	Over the past 80 years, our understanding of neutrinos has gone from nothing to something, and many major breakthroughs have been made. The Daya Bay experiment is China's first attempt to study neutrino oscillation, and it is the beginning of China's entry into the basic scientific research of neutrinos. The book introduces to readers about what neutrinos are, what neutrino oscillations are, how the Daya Bay Experiment was designed, developed and built and how it works. The book also includes the meaning of The Daya Bay experiment and what important results it has achieved.
