Sommario/riassunto

Kashmiri nationalism is defined by its dichotomy between the ethnic and the civic. Arshi Javaid delves into this dichotomy, unravelling the political and social variables that shape it. Moving beyond a conventional securitized perspective on the Kashmir conflict, she offers an understanding of Kashmiri nationalism as a daily practice. This perspective critiques the view that reduces Kashmiri nationalism to a monolithic entity, highlights dynamic socio-political developments, and argues that the state nationalist majoritarian agenda undermines collective rights, erodes local identities, and escalates tensions, breeding confrontation.
