

1. Record Nr.	UNINA9910557760203321
Autore	Kipp Markus
Titolo	Oligodendrocyte Physiology and Pathology Function
Pubbl/distr/stampa	Basel, Switzerland, : MDPI - Multidisciplinary Digital Publishing Institute, 2021
Descrizione fisica	1 online resource (330 p.)
Soggetti	Medicine and Nursing Neurosciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>The adult vertebrate central nervous system mainly consists of neurons, astrocytes, microglia cells, and oligodendrocytes. Oligodendrocytes, the myelin-forming cells of the CNS, are subjected to cell stress and subsequent death in a number of metabolic or inflammatory disorders, among which multiple sclerosis (MS) is included. This disease is associated with the development of large demyelinated plaques, oligodendrocyte destruction, and axonal degeneration, paralleled by the activation of astrocytes and microglia as well as the recruitment of peripheral immune cells to the site of tissue injury. Of note, viable oligodendrocytes and an intact myelin sheath are indispensable for neuronal health. For example, it has been shown that oligodendrocytes provide nutritional support to neurons, fast axonal transport depends on proper oligodendrocyte function, and mice deficient in mature myelin proteins eventually display severe neurodegeneration. This Special Issue contains a collection of highly relevant primary research articles as well as review articles focusing on the development, physiology, and pathology of the oligodendrocyte-axon-myelin unit.</p>

2. Record Nr.	UNIORUON00025233
Autore	TANIZAKI Jun'ichiro
Titolo	Il dramma stregato / Jun'ichiro Tanizaki
Pubbl/distr/stampa	166 p. ; 20 cm
Titolo uniforme	Norowareta gikyoku / Jun'ichiro Tanizaki [in italiano]
ISBN	88-07-81126-X
Edizione	[Milano : Feltrinelli]
Descrizione fisica	Titolo originale : Norowareta gikyoku, tr. di Lydia Origlia
Classificazione	GIA VI BA
Soggetti	Letteratura giapponese - Narrativa - Sec. 20
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
3. Record Nr.	UNISA996659458003316
Autore	Lesser Jeff
Titolo	Living and Dying in São Paulo : Immigrants, Health, and the Built Environment in Brazil // Jeffrey Lesser
Pubbl/distr/stampa	2025 Durham : , : Duke University Press, , [2025]
ISBN	9781478094111 1478094117
Edizione	[1st ed.]
Descrizione fisica	1 online resource (319 p.)
Classificazione	HIS033000MED078000SOC008050
Disciplina	362.1098161
Soggetti	Environmental health - Brazil - Sao Paulo Immigrants - Health and hygiene - Brazil - Sao Paulo Public health - Brazil - Sao Paulo Social classes - Health aspects - Brazil - Sao Paulo HISTORY / Latin America / South America
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

Nota di contenuto

Frontmatter -- contents -- A Long Set Of Acknowledgments -- An Introduction -- 1 Naming a Death -- 2 Bom Retiro Is the World? -- 3 Bad Health in a Good Retreat -- 4 Enforcing Health -- 5 A Building Block of Health -- 6 Unliving Rats and Undead Immigrants -- A Conclusion -- Notes -- Bibliography -- Index

Sommario/riassunto

There is a saying in Brazil: “Mosquitoes are democratic: they bite the rich and the poor alike.” Why then is bad health---from violence to respiratory disease, from malaria to dengue---dispersed unevenly across different social and national groups? In *Living and Dying in São Paulo*, Jeffrey Lesser focuses on the Bom Retiro neighborhood to explore such questions by examining the competing visions of well-being in Brazil among racialized immigrants and policymakers and health officials. He analyzes the fraught relationship between Bom Retiro residents and the state and health care agencies that have overseen community sanitation efforts since the mid-nineteenth century, drawing out the connected systems of the built environment, public health laws and practices, and citizenship. Lesser employs the concept of “residues” to outline how continuing historical material, legislative, and social legacies structure contemporary daily life and health outcomes in the neighborhood. In so doing, Lesser creates a dialogue between the past and the present, showing how the relationship between culture and disease is both layered and interconnected.
