Sommario/riassunto	This book constitutes late breaking papers from the 22nd International Conference on Human-Computer Interaction, HCII 2020, which was held in July 2020. The conference was planned to take place in Copenhagen, Denmark, but had to change to a virtual conference mode due to the COVID-19 pandemic. From a total of 6326 submissions, a total of 1439 papers and 238 posters have been accepted for publication in the HCII 2020 proceedings before the conference took place. In addition, a total of 333 papers and 144 posters are included in the volumes of the proceedings published after the conference as "Late Breaking Work" (papers and posters). These contributions address the latest research and development efforts in the field and highlight the human aspects of design and use of computing systems. The 54 late breaking papers address topics such as Interaction, Knowledge and Social Media. .

Sommario/riassunto

The company that became GKN was forged in the first fires of the Industrial Revolution. And through the two-and-a-half centuries of its remarkable life, GKN has proved a master of Industrial Evolution. From a single blast furnace fuelling a tiny iron works on a remote Welsh hillside, GKN was built by a group of men - and one woman - into a world leader. Not just once or twice, but many times, it has changed shape and direction to hold its place at the forefront of the engineering industry. When iron gave birth to the worldwide railway boom in the early 1800s, GKN was there. It was among t
