

1. Record Nr.	UNISALENTO991000754859707536
Autore	Barlotti, Adriano
Titolo	Combinatorial and geometric structures and their applications / edited by A. Barlotti
Pubbl/distr/stampa	Amsterdam : North-Holland, 1982
ISBN	0444863842
Descrizione fisica	viii, 292 p. : ill. ; 24 cm
Collana	Annals of discrete mathematics ; 14 North-Holland mathematics studies, 0304-0208 ; 63
Classificazione	AMS 05B AMS 51-06 AMS 51-XX AMS 51D20 AMS 51E
Disciplina	511.6
Soggetti	Combinatorial designs and configurations Combinatorial geometry Finite geometries Geometry - Congresses
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes bibliographies. "Symposium on 'Combinatorial Structures and their Applications' was held at Villa Madruzzo (Cognola di Trento), on October 20-25, 1980 ... and sponsored by the Centro interuniversitario per la ricerca matematica (C.I.R.C.M.) of the 'Università di Trento'" - Pref.

2. Record Nr.	UNINA9910619471803321
Autore	Wu Wei
Titolo	Advances in the Processing and Application of Polymer and Its Composites
Pubbl/distr/stampa	MDPI - Multidisciplinary Digital Publishing Institute, 2022
ISBN	3-0365-5414-9
Descrizione fisica	1 electronic resource (194 p.)
Soggetti	Technology: general issues History of engineering & technology Materials science History of engineering and technology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This book mainly focuses on the processing and applications of polymer and its composites. With the fast development of the petroleum industry, polymer materials have been widely utilized in our daily lives. The various processing methods of polymers determine the final properties and performance of products. In addition, the introduction of different fillers, including inorganic fillers, metal oxide, natural fibers, and so on, can increase the physical and chemical properties of polymer composites, which will further broaden their practical applications. Special attention will be paid to the type of processing methods and the functional fillers on the performance of polymer composites.
