

1. Record Nr.	UNISALENTO991000776669707536
Autore	James, Reginald William
Titolo	The optical principles of the diffraction of X-rays / by R. W. James
Pubbl/distr/stampa	Woodbridge : Ox Bow Press, 1982
ISBN	0918024234
Descrizione fisica	xvi, 664 p., 16 p. of plates : ill. ; 23 cm
Disciplina	548
Soggetti	X-rays - Diffraction
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	<p>"Originally published as The Crystalline State - Vol. II in 1948. Editor: Sir Lawrence Bragg. This reprint published in agreement with Bell &amp; Hyman Ltd, England". - t. p. verso</p> <p>"When this book was reprinted in 1954 a fifth appendix, on the use of Fourier transforms in diffraction problems, was included. In the further reprint of 1962 a sixth appendix has been added, giving a brief account of the dynamical theories of absorption and energy propagation in perfect crystals". - Note to reprint of 1962</p>
