

1. Record Nr.	UNISALENTO991000933409707536
Autore	Guerrazzi, Vincenzo
Titolo	Gli intelligenti / Vincenzo Guerrazzi
Pubbl/distr/stampa	Napoli : Marotta, 1978
Descrizione fisica	251 p. ; 21 cm
Disciplina	301.44
Soggetti	Intellettuali italiani - Inchieste
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
2. Record Nr.	UNINA9910484506403321
Autore	Domjan Paul <1980->
Titolo	Chain Reaction : How Blockchain Will Transform the Developing World / / by Paul Domjan, Gavin Serkin, Brandon Thomas, John Toshack
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Palgrave Macmillan, , 2021
ISBN	9783030517847 3030517845
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (114 pages)
Disciplina	005.74 332.1091724
Soggetti	Development economics Business enterprises - Finance International finance Financial services industry Finance Development Economics Corporate Finance International Finance Financial Services Financial Economics

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Chapter 1: Introducing blockchain: Tomorrow's Railroads -- Chapter 2: Trust Matters -- Chapter 3: What Does Blockchain Solve? -- Chapter 4: Who Really Controls Blockchain? -- Chapter 5: Making money -- Chapter 6: More than money -- Chapter 7: Opening Up Trade -- Chapter 8: The Big Bet Vs. Devil You Know.
Sommario/riassunto	<p>Amidst the constant stream of overly technical and excitable books heralding a blockchain revolution that's destined to be more disruptive than the Internet, this book stands apart for its more nuanced take, focusing on the potential for these new technologies to change developing countries for the better. Chain Reaction divides the world into two: for some, blockchain seems a poor substitute for an efficient banking and regulatory system in which transactions are settled instantly and contracts are underpinned by solid institutions. For others, it will be truly life-changing - namely those living in countries where rule of law is weak, concepts of ownership are vague and, consequently, trust in institutions is in scarce supply. With blockchain, we are about to witness a leapfrogging - one that will bring the next billion emerging consumers into the formal economy by creating reliable institutions of contract, ownership and trust among people previously denied such luxuries. The authors humanize the technology by taking the reader on a global journey through a multitude of applications - from registering property to voting and delivering aid. In place of the usual abstract lessons in complex technology, this book is instead filled with lively anecdotes of places where trust is so weak that a crisp dollar bill sells at a premium to a better-used version. The book's goal is to create the first truly approachable, entirely comprehensible and enjoyable read on the wonders to come from blockchain.</p>
