Sommario/riassunto	21st Century Philanthropy and Community fills a gap in the literature on philanthropic organizations and how they intertwine with community development. Drawing first on the history of philanthropic funding, Maria Martinez-Cosio and Mirle Bussell look at developments in the last twenty years in detail, focussing on five key case studies from across America. The authors use their own first hand experiences and research to forge a new path for academic research in an area where it has been lacking. With the current economic climate forcing shrewd spending, foundations need al
