Sommario/riassunto	Pimsleur® equals success. Just one 30minute lesson a day gets you speaking and understanding like no other program. Spanish Phase 2, Units 1115 build on material taught in prior units. Each lesson provides 30 minutes of spoken language practice, with an introductory conversation, and new vocabulary and structures. Detailed instructions enable you to understand and participate in the conversation. Each lesson contains practice for vocabulary introduced in previous lessons. The emphasis is on pronunciation and comprehension, and on learning to speak Spanish.

Sommario/riassunto

The molecular mechanisms and protein species associated with the mineralization of mature dental enamel are active areas of research. This book focuses on specific areas of research including the structural chemistry, protein biochemistry and genetics of enamel development.
