

1.	Record Nr.	UNISALENTO991000972779707536
	Autore	Byers, Horace Robert
	Titolo	General meteorology / H.R. Byers
	Pubbl/distr/stampa	New York : McGraw-Hill Book Co., 1974
	Edizione	[4th ed.]
	Descrizione fisica	xiv, 460 p. : ill. ; 24 cm.
	Classificazione	52.9.34 551.5 QC861.2
	Soggetti	Meteorology
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
2.	Record Nr.	UNINA9910349290003321
	Titolo	Advances in Digital Forensics XV : 15th IFIP WG 11.9 International Conference, Orlando, FL, USA, January 28–29, 2019, Revised Selected Papers // edited by Gilbert Peterson, Sujeet Shenoj
	Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
	ISBN	3-030-28752-1
	Edizione	[1st ed. 2019.]
	Descrizione fisica	1 online resource (XVIII, 272 p. 1 illus.)
	Collana	IFIP Advances in Information and Communication Technology, , 1868-422X ; ; 569
	Disciplina	005.8
	Soggetti	Data protection Computer crimes Computers - Law and legislation Information technology - Law and legislation Robotics Computer vision Data and Information Security Computer Crime Legal Aspects of Computing Computer Vision

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>ADVANCES IN DIGITAL FORENSICS XV Edited by: Gilbert Peterson and Sujeet Shenoj Digital forensics deals with the acquisition, preservation, examination, analysis and presentation of electronic evidence. Computer networks, cloud computing, smartphones, embedded devices and the Internet of Things have expanded the role of digital forensics beyond traditional computer crime investigations. Practically every crime now involves some aspect of digital evidence; digital forensics provides the techniques and tools to articulate this evidence in legal proceedings. Digital forensics also has myriad intelligence applications; furthermore, it has a vital role in cyber security -- investigations of security breaches yield valuable information that can be used to design more secure and resilient systems. Advances in Digital Forensics XV describes original research results and innovative applications in the discipline of digital forensics. In addition, it highlights some of the major technical and legal issues related to digital evidence and electronic crime investigations. The areas of coverage include: · Forensic Models · Mobile and Embedded Device Forensics · Filesystem Forensics · Image Forensics · Forensic Techniques This book is the fifteenth volume in the annual series produced by the International Federation for Information Processing (IFIP) Working Group 11.9 on Digital Forensics, an international community of scientists, engineers and practitioners dedicated to advancing the state of the art of research and practice in digital forensics. The book contains a selection of fourteen edited papers from the Fifteenth Annual IFIP WG 11.9 International Conference on Digital Forensics, held in Orlando, Florida, USA in the winter of 2019. Advances in Digital Forensics XV is an important resource for researchers, faculty members and graduate students, as well as for practitioners and individuals engaged in research and development efforts for the law enforcement and intelligence communities. Gilbert Peterson, Chair, IFIP WG 11.9 on Digital Forensics, is a Professor of Computer Engineering at the Air Force Institute of Technology, Wright-Patterson Air Force Base, Ohio, USA. Sujeet Shenoj is the F.P. Walter Professor of Computer Science and a Professor of Chemical Engineering at the University of Tulsa, Tulsa, Oklahoma, USA.</p>
