Sommario/riassunto

This open access book constitutes the proceedings of the 21st International Conference on Agile Software Development, XP 2020, which was planned to be held during June 8-12, 2020, at the IT University of Copenhagen, Denmark. However, due to the COVID-19 pandemic the conference was postponed until an undetermined date. XP is the premier agile software development conference combining research and practice. It is a hybrid forum where agile researchers, academics, practitioners, thought leaders, coaches, and trainers get together to present and discuss their most recent innovations, research results, experiences, concerns, challenges, and trends. Following this history, for both researchers and seasoned practitioners XP 2020 provided an informal environment to network, share, and discover trends in Agile for the next 20 years. The 14 full and 2 short papers presented in this volume were carefully reviewed and selected from 37 submissions. They were organized in topical sections named: agile adoption; agile practices; large-scale agile; the business of agile; and agile and testing. .

Sommario/riassunto

William Vermilion (1830-1894) served as a captain in Company F of the 36th Iowa Infantry from October 1862 until September 1865. Although he was a physician in Iconium in south central Iowa at the start of the war, after it ended he became a noted lawyer in nearby Centerville; he was also a state senator from 1869 to 1872. Mary Vermilion (1831-1883) was a schoolteacher who grew up in Indiana; she and William married in 1858. In this volume historian Donald Elder provides a careful selection from the hundreds of supportive, informative, and heart-wrenching letters that they wrot
