

1. Record Nr.	UNINA9910317360003321
Autore	Ballarani, Gianni
Titolo	Matrimonio concordatario nella metamorfosi della famiglia / Gianni Ballarani
Pubbl/distr/stampa	Napoli : Edizioni scientifiche italiane, 2018
ISBN	978-88-495-3660-7
Descrizione fisica	XVIII, 149 p. ; 24 cm
Collana	Cultura giuridica e rapporti civili ; 25
Disciplina	346.450165
Locazione	FGBC
Collocazione	VIII C 393
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNISALENTO991001140509707536
Autore	Bresciani, Edda
Titolo	Rapporto preliminare delle campagne di scavo 1968 e 1969 / Edda Bresciani ; Ostraka e papiri greci da Medinet Madi nelle campagne 1968 e 1969 / Daniele Foraboschi
Pubbl/distr/stampa	Milano : Istituto editoriale Cisalpino-La goliardica, 1976
Descrizione fisica	XVII, 102 p., [4] c. di tav. : ill. ; 33 cm
Collana	Testi e documenti per lo studio dell'antichit�a ; 53
Altri autori (Persone)	Foraboschi, Daniele
Altri autori (Enti)	Missione di scavo a Medinet Madi (Fayum, Egitto)
Disciplina	913.32
Soggetti	Scavi archeologici - Egitto Manoscritti greci (Papyri) - Egitto - Narmouthis Ostraka Narmouthis
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	In testa al front.: Istituto di papirologia dell'Universit�a degli studi di Milano, Missione di scavo a Medinet Madi (Fayum, Egitto)
Nota di bibliografia	Contiene riferimenti bibliografici. Indici

3. Record Nr.	UNINA9910781516603321
Titolo	Life sciences and related fields : trends relevant to the biological weapons convention // National Research Council of the National Academies
Pubbl/distr/stampa	Washington, D.C., : National Academies Press, 2011
ISBN	0-309-21074-7 1-283-37624-5 9786613376244 0-309-21072-0
Descrizione fisica	1 online resource (164 p.)
Disciplina	358.3882
Soggetti	Biological weapons - United States Life sciences - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Committee on Trends in Science and Technology Relevant to the Biological Weapons Convention: an International Workshop, Board on Life Sciences, Division on Earth and Life Sciences." "In cooperation with Chinese Academy of Sciences, IAP-the Global Network of Science Academies, International Union of Biochemistry and Molecular Biology, International Union of Microbiological Societies."
Nota di bibliografia	Includes bibliographical references.

Sommario/riassunto	During the last decade, national and international scientific organizations have become increasingly engaged in considering how to respond to the biosecurity implications of developments in the life sciences and in assessing trends in science and technology (S&T)

relevant to biological and chemical weapons nonproliferation. The latest example is an international workshop, Trends in Science and Technology Relevant to the Biological Weapons Convention, held October 31 - November 3, 2010 at the Institute of Biophysics of the Chinese Academy of Sciences in Beijing. Life Sciences and Related Fields summarizes the workshop, plenary, and breakout discussion sessions held during this convention. Given the immense diversity of current research and development, the report is only able to provide an overview of the areas of science and technology the committee believes are potentially relevant to the future of the Biological and Toxic Weapons Convention (BWC), although there is an effort to identify areas that seemed particularly ripe for further exploration and analysis. The report offers findings and conclusions organized around three fundamental and frequently cited trends in S&T that affect the scope and operation of the convention: The rapid pace of change in the life sciences and related fields; The increasing diffusion of life sciences research capacity and its applications, both internationally and beyond traditional research institutions; and The extent to which additional scientific and technical disciplines beyond biology are increasingly involved in life sciences research. The report does not make recommendations about policy options to respond to the implications of the identified trends. The choice of such responses rests with the 164 States Parties to the Convention, who must take into account multiple factors beyond the project's focus on the state of the science.
