1. Record Nr.   UNISALENTO991001200049707536

   Autore   Moreno, Carlos Julio

   Titolo   Advanced analytic number theory : L-functions / Carlos Julio Moreno

   Pubbl/distr/stampa   Providence, R.I. : American Mathematical Society, 2005

   ISBN   0821836412

   Descrizione fisica   xx, 291 p. ; 27 cm

   Collana   Mathematical surveys and monographs, 0076-5376 ; 115

   Classificazione   AMS 11M
                        AMS 11R
                        AMS 22E
                        AMS 11S
                        LC QA246.M76

   Disciplina   512.73

   Soggetti   L-functions
                        Algebraic number theory
                        Lie groups

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Nota di bibliografia   Includes bibliographical references (p. 283-290) and index

2.	Record Nr.	UNINA9910780434603321
	Autore	Overton David
	Titolo	Small business server 2008 [[electronic resource]] : installation, migration, and configuration : set up and run your small business server making it deliver big business impact / / David Overton
	Pubbl/distr/stampa	Birmingham, U.K., : Packt Pub., 2009
	ISBN	1-282-09407-6
		9786612094071
		1-84719-631-4
	Descrizione fisica	1 online resource (408 p.)
	Collana	From technologies to solutions
	Disciplina	004.36
	Soggetti	Client/server computing
		Systems migration
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Includes index.
	Nota di contenuto	Cover; Table of Contents; Preface; Chapter 1: Introduction; Who should read this book...and do the work?; Why are you installing a server?; How to get the return on your server investment; Book goals; Navigation route through book; How to ask more questions; Summary; Chapter 2: Introduction to SBS 2008; SBS 2008; Windows Server 2008; Exchange Server 2007; Windows SharePoint Services; Windows Software Update Services; Windows SBS Console; Premium Server technologies; Solution Checklist; Support; Summary; Chapter 3: Preparing to Migrate from SBS 2003
		When to migrate and when to perform a clean installation Only migrating a part of a system; Why do you have to migrate to SBS 2008?; Fourteen steps of migration; Doing two things at once; Migrating from SBS 2003 to SBS 2008 on the same server; Migration with Hyper-V running SBS 2003 and SBS 2008 on the same system; Process to migrate on one system; Migration by moving SBS 2003 to a temporary virtual environment; Process for installing SBS 2008 on the same box as 2003; Planning the migration and communicating the plan; Informing the users; Checking the health of the SBS 2003
		Checking Active Directory Backing up the existing server; Doing the backup; Changing network configuration to match SBS 2008 design

requirements; Installing your firewall and router and ensuring DHCP is turned off on these devices; Physically re-configuring SBS 2003 to use a single NIC; Re-configuring SBS 2003 network settings; Checking that the router has the correct firewall settings; Checking if network settings are correct; Updating software on SBS 2003; Installing Updates; Checking Versions; Checking SBS 2003 is at Service Pack 1 or greater Checking Windows Server is at Service Pack 2 or greater Checking Exchange 2003 Service Pack 2 is installed; Checking that .NET Framework 2.0 is installed; Checking the version for Microsoft Core XML Services; Checking Windows SharePoint Services 2.0 Service Pack 3 is installed and used; Changing Active Directory functionality level; Raising the functional level for the domain and Forest; Confirming SBS 2003 is currently configured at best practice levels; Removing unnecessary email from Exchange; Checking that the permissions are set to allow a migration

Preparing SBS 2003 Time Synchronisation Running the migration tool on SBS 2003; Preparing to migrate line-of-business applications; Completing the answer file for SBS 2008 setup; What is not covered; ISA configuration; Other Security & Firewall software; Summary; Chapter 4: Installing SBS 2008 and Connecting to the Internet; SBS 2008 installation; Operating system installation; SBS 2008 installation continued; Time Verification; Network settings for migrating systems; Getting installation updates; Confirming Company information; Creating an administrator account for new installations

Naming your server and domain for new installations
