| Sommario/riassunto | The importance of 'evidence based practice' in health and social work has been emphasised by recent policy and legislative initiatives, but how do professionals decide which research findings are valuable and relevant to them? This accessible introduction provides social work students and practitioners with the knowledge they need both to |

evaluate research and to apply it to their own practice. Exploring the range of research methodologies used in health and social care, from randomised control trials to surveys, interviews, experimental designs and ethnographic approaches, Michael Sheppard di
