Nota di contenuto

Normal function, impairment, and disabilities -- Criteria for evaluating permanent impairment of the visual system -- Visual functions, visual tasks, and task analysis -- How to perform ocular (vision) screening -- Visual disability : the relationship to permanent impairment and visual tasks

Sommario/riassunto

"AMA Guides to the Evaluation of Ophthalmic Impairment and Disability is a comprehensive guide on vision and visual impairment that can be used to determine if visual impairment or disability exists, the severity of the diagnosis, and how this translates into whether a person is able to perform activities of daily living (ADL's) and/or possible related occupational duties"--Provided by publisher
