

1. Record Nr.	UNISALENTO991001448429707536
Autore	Istituto nazionale di alta matematica Francesco Severi
Titolo	Topologia insiemistica e generale (8-13 marzo 1973) ; Gruppi topologici e gruppi di lie (22-25 gennaio 1974) / Istituto Nazionale di Alta Matematica (INDAM)
Pubbl/distr/stampa	London ; New York : Academic Press, 1975
Descrizione fisica	486 p. ; 25 cm
Collana	Symposia mathematica ; 16
Classificazione	AMS 00B
Altri autori (Convegni)	Gruppi topologici e gruppi di lie (22-25 gennaio 1974)
Disciplina	510
Soggetti	Topology - Congresses Mappings (Mathematics) - Congresses Functions - Congresses Topological groups - Congresses Lie groups - Congresses
Lingua di pubblicazione	Molteplice
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	[Pt. 1]: The plane is the union of [denumerable symbol] disjoint connected curves / J. Ceder. Some proximate concepts in topology / V. Klee and A. Yandl. Meet-continuous lattices / J.R. Isbell. On generalized metric spaces and q-closed mappings / J. Nagata. On partitions of complete spaces which do not admit analytic selectors and on some consequences of a theorem of Godel / K. Kuratowski. Shapes of compact pairs / S. Mardesic. Some new proofs in dimension theory / R. Engelking. Paracompact frames and closed maps / C.H. Dowker and D. Papert Strauss. On the use of structure topologies in functional analysis / E.M. Alfsen. A separable Dowker space / M.E. Rudin. Products in the shape category and some applications / J. Keesling. Syntopogenous structures and transformation groups / A. Csaszar. On inequalities involving functions on a convex set / D.A. Edwards. Functional analytic methods in topology / E. Binz. Topologies associated with operators on normed function spaces / R.A. Alò. Pulling back feelers / R.H. Bing. [Pt. 2]: Uniform continuity in topological groups / W.W. Comfort and A. W. Hager. Duality of semigroups and measure algebras / J.W. Baker. Probabilistic characterization of certain classes of locally compact

groups / H. Heyer. Analytic groups without analysis / K.H. Hofmann.
On the topology of homogeneous spaces of finite measure / G.D.
Mostow. Cohomologie des actions locales de groupes de Lie / J.L.
Koszul. On the Burnside problem for locally compact groups / W.
Zelasko. Amenability of locally compact groups and vector-valued
function spaces / T. Husain. On the structure of the set of conjugate
classes in certain locally compact groups. Note varie. Sur la
decomposition semidirecte des groupes compacts connexes / K.H.
Hofmann
