**Sommario/riassunto** This continuation of a series of comprehensive chronological reference works lists the results of men's chess competitions all over the world--individual and team matches. The present volume covers 1978 through 1980. Entries record location and, when available, the group that sponsored the event. First and last names of players are included whenever possible and are standardized for easy reference. Compiled from contemporary sources such as newspapers, periodicals, tournament records and match books, this work contains 855 tournament cross tables and 90 match scores, and is indexed by events

---

### Sommario/riassunto

Coverage extends across the range of major hematologic malignancies and solid tumors, as well as reviews of pharmacology, biostatistics, genetics and tumor biology, and survivorship and palliative care. Each topic is consistently presented with the key points summarized in bullet point form for easy recall. Question-based headings enable the reader to systematically review and assess his knowledge.
