Sommariorriassunto	<p>This new textbook has an international authorship and is a practical, up-to-date resource for clinicians responsible for the care of children with oncologic and malignant hematologic disease. It is specifically designed for practicing oncologists and hematologists, pediatricians with an interest in childhood cancer and trainees seeking a systematic approach to these disorders. This new textbook has an emphasis on the visual presentation and ease of reading of contemporary and comprehensive information for children's cancers and contains detailed tables, fact boxes and illustrations.
