Autore	Liu Zhiyuan
Titolo	Representation Learning for Natural Language Processing [[electronic resource] /] / edited by Zhiyuan Liu, Yankai Lin, Maosong Sun
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2023
ISBN	981-9916-00-3
Edizione	[2nd ed. 2023.]
Descrizione fisica	1 online resource (535 pages)
Altri autori (Persone)	LinYankai SunMaosong
Disciplina	006.35
Soggetti	Natural language processing (Computer science) Computational linguistics Artificial intelligence Data mining Natural Language Processing (NLP) Computational Linguistics Artificial Intelligence Data Mining and Knowledge Discovery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1. Representation Learning and NLP -- Chapter 2. Word Representation -- Chapter 3. Compositional Semantics -- Chapter 4. Sentence Representation -- Chapter 5. Document Representation -- Chapter 6. Sememe Knowledge Representation -- Chapter 7. World Knowledge Representation -- Chapter 8. Network Representation -- Chapter 9. Cross-Modal Representation -- Chapter 10. Resources -- Chapter 11. Outlook.
Sommario/riassunto	This book provides an overview of the recent advances in representation learning theory, algorithms, and applications for natural language processing (NLP), ranging from word embeddings to pre-trained language models. It is divided into four parts. Part I presents the representation learning techniques for multiple language entries, including words, sentences and documents, as well as pre-training techniques. Part II then introduces the related representation

techniques to NLP, including graphs, cross-modal entries, and robustness. Part III then introduces the representation techniques for the knowledge that are closely related to NLP, including entity-based world knowledge, sememe-based linguistic knowledge, legal domain knowledge and biomedical domain knowledge. Lastly, Part IV discusses the remaining challenges and future research directions. The theories and algorithms of representation learning presented can also benefit other related domains such as machine learning, social network analysis, semantic Web, information retrieval, data mining and computational biology. This book is intended for advanced undergraduate and graduate students, post-doctoral fellows, researchers, lecturers, and industrial engineers, as well as anyone interested in representation learning and natural language processing. As compared to the first edition, the second edition (1) provides a more detailed introduction to representation learning in Chapter 1; (2) adds four new chapters to introduce pre-trained language models, robust representation learning, legal knowledge representation learning and biomedical knowledge representation learning; (3) updates recent advances in representation learning in all chapters; and (4) corrects some errors in the first edition. The new contents will be approximately 50%+ compared to the first edition. This is an open access book.

	Edizione	[1st ed.]
	Descrizione fisica	1 online resource (206 p.)
	Disciplina	297.2
	Soggetti	Islam - History
		Islam - Essence, genius, nature
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Includes bibliographical references and index.
	Nota di contenuto	Pt. 1. The theoretical and historical background -- The Mohammedan mission -- The characteristics of the Mohammedan mission -- The issue of legislation (Tashric) -- The seal of prophecy -- Pt. 2. The Mission in History -- The Prophet's caliphate -- Institutionalizing religion -- Theorizing for the institution -- Epilogue.
	Sommario/riassunto	Why this book? What can it add to the many works that have already explored Islam as a history, a doctrine, a law, and a code of ethics? The bulk of Islamic thought nowadays is either a repetition of and rumination about what the ancients have already said, or the tackling of partial issues that falls short of a comprehensive view and a theoretical framework. All too often ideology replaces real knowledge. This work attempts to introduce the characteristics of the Mohammedan Mission, with the aspiration to be faithful to its essential purposes and to historical truth at the same time. The author thus illustrates the different ways in which people have understood the Mission and the

reasons that led them to those various interpretations. The book presents several alternative interpretations that actually existed but did not enjoy widespread acceptance and popularity.
