Sommario/riassunto	Focuses on the theories and study of organizational and workplace learning. Outlines the landscape of learning in co-configuration settings, a new type of work that includes interdependency between multiple producers forming a strategic alliance, supplier network, or other such pattern of partnership which collaboratively puts together and maintains a complex package, integrating material products and services. Notes that learning in co-configuration settings is typically distributed over long, discontinuous periods of time. It is accomplished

in and between multiple loosely interconnected act
