Sommario/riassunto

Urban Wildscapes is one of the first edited collections of writings about urban 'wilderness' landscapes. Evolved, rather than designed or planned, these derelict, abandoned and marginal spaces are frequently overgrown with vegetation and host to a wide range of human activities. They include former industrial sites, landfill, allotments, cemeteries, woods, infrastructural corridors, vacant lots and a whole array of urban wastelands at a variety of different scales. Frequently maligned in the media, these landscapes have recently been re-evaluated and this collection assembles these
