Nota di contenuto

pt. I. The double aim of protecting financial consumers and the stability of the markets in the context of financial institution failure -- pt. II. Delineating financial consumer protection under EU law in the event of financial institution failure.

Sommario/riassunto

This book offers an original perspective on EU financial law in the area of retail investor protection by conducting comparisons both externally (to international proposals) and internally (among EU law sectors and specific instruments in relation to one another). In so doing, this study represents a valuable addition to the literature on retail investor protection in the EU.
