Sommario/riassunto

From Bronze Age Thailand to Viking Iceland, from an Egyptian oasis to a family farm in Canada, *The Bioarchaeology of Individuals* invites readers to unearth the daily lives of people throughout history. Covering a span of more than four thousand years of human history and focusing on individuals who lived between 3200 BC and the nineteenth century, the essays in this book examine the lives of nomads, warriors, artisans, farmers, and healers. The contributors employ a wide range of tools, including traditional macroscopic skeletal analysis, bone chemistry, ancient DNA, grave cont

Sommario/riassunto	Citizenship education is too often like that old saw about the weather: everyone talks about it but no one does anything about it. This book, however, showcases an array of innovative schools that are doing something about it. And doing it well. These case studies demonstrate that schools do not have to choose between high academic standards and preparing their students for the responsibilities of citizenship. May these schools inspire educators everywhere to follow their lead!
