2. Record Nr.	UNINA9910557104703321
Autore	Kwatra Shawn G
Titolo	Pathogenesis and Treatment of Chronic Pruritus
Pubbl/distr/stampa	Basel, Switzerland, : MDPI - Multidisciplinary Digital Publishing Institute, 2020
Descrizione fisica	1 online resource (144 p.)
Soggetti	Medicine and Nursing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>This Special Edition Issue on the "Pathogenesis and Treatment of Chronic Pruritus" contains an overview of various known causes of chronic pruritus and emerging therapeutics. Chronic pruritus is an itch that lasts longer than six weeks, and is associated with a variety of dermatologic, systemic, neurologic, and psychiatric etiologies. Itch negatively impacts patient quality of life, and has devastating psychosocial consequences. The manuscripts published in this Special Issue are also a showcase of the current understanding of the pathogenesis of chronic pruritus, along with its epidemiology, diagnostic workup, and therapeutic approaches used to treat chronic pruritus. A special focus is also placed on prurigo nodularis, a severely pruritic chronic inflammatory skin disease.</p>
